Chief Technology Officer — Aditya Srivastava

DALLAS — Aditya Srivastava has joined Cenergistic as Chief Technology Officer, Ray Hood, CEO, announced today. Mr. Srivastava will head the energy conservation company's growing technology and software offerings.

Mr. Srivastava has served as Senior Vice President and Chief Technology Officer for companies such as Allegro Development, JDA Software Group, and i2 Technologies. He has more than 30 years of experience in Information Technology, Software Development, Artificial Intelligence and Compilers for C, C++ and Prolog languages.

He serves on the Industry Advisory Board for Southern Methodist University, Department of Computer Science and Engineering; and University of Texas, Dallas, Department of Computer Science. Mr. Srivastava holds five United States patents.

Mr. Srivastava earned his Master's Degree in Computer Science from the University of Kentucky; and his BTech in Electrical Engineering from the Indian Institute of Technology, Kanpur, India.

Cenergistic is a technology-powered, data-driven energy conservation company. Cenergistic helps organizations reduce consumption of electricity, natural gas, fuel oil and water. Its proven approach is built on a proprietary methodology, which optimizes clients' infrastructure, improves internal processes and changes behavior to ensure that savings endure. This approach empowers the average client to save 20 – 30% off expected utility bills. For the past nine years, Cenergistic has earned national recognition from the United States Environmental Protection Agency, including the ENERGY STAR Partner of the Year – Sustained Excellence Award in 2011, 2012, 2013, 2014, 2015, 2016 and 2017.
