Cenergistic Earns 10th Consecutive ENERGY STAR Award — 2018 ENERGY STAR® Partner Of The Year – Sustained Excellence

Cenergistic’s program protects the environment through energy conservation

DALLAS — Cenergistic received the 2018 ENERGY STAR® Partner of the Year Sustained Excellence Award for continued leadership and superior contributions to ENERGY STAR.

Cenergistic’s accomplishments will be recognized by the U.S. Environmental Protection Agency and the U.S. Department of Energy at a ceremony in Washington, D.C. April 20, 2018.

“We just celebrated saving \$5 billion for clients through our program. Earning our 10th straight ENERGY STAR Award makes that achievement all the better. 2018 is a milestone year for Cenergistic,” said Ray Hood, CEO.

Cenergistic is receiving its 10th consecutive recognition for ongoing commitment to promoting energy conservation and the ENERGY STAR program. The company is ENERGY STAR’s most active Service and Product Provider, working with each client to submit a Partner Letter and pursue ENERGY STAR recognition, helping save more than \$5 billion in its 32-year history. Among the company’s 2017 ENERGY STAR accomplishments:

1. Clients earned ENERGY STAR Certification for 1,635 client buildings in 2017, bringing the total to 10,016 Certifications in 44 states.
2. Clients saved an average 26% off expected energy costs in 2017, and an average 26% over the last 31 years while saving \$5 billion in expected energy costs since 1986.
3. Assisting clients in benchmarking buildings in EPA’s ENERGY STAR Portfolio Manager® through client-licensed third party EnergyCAP® software.

“ENERGY STAR Certification for client buildings and ongoing recognition of the company itself provide valuable third-party validation of our successful energy conservation program. ENERGY STAR is an important factor in Cenergistic’s efforts. Our clients are much more comfortable partnering with us knowing that we’re evaluated continually through ENERGY STAR, and we have more ENERGY STAR client buildings than any other provider,” said Dr. Randy Hoff, PE, CEM, CMVP, Cenergistic’s Vice Chairman.

“The 2018 ENERGY STAR Partners of the Year have demonstrated real leadership, showing how American families and businesses can save energy, save money, and reduce air emissions,” said Bill Wehrum, EPA Assistant Administrator for Air and Radiation.

The 2018 Partner of the Year – Sustained Excellence Awards are bestowed upon companies and other organizations demonstrating continued leadership in energy efficiency and commitment to the ENERGY STAR program. Winners range from small, family-owned businesses to Fortune 500 organizations — representing energy-efficient products, services, new homes, and buildings in the commercial, industrial, and public sectors.

About Cenergistic

Cenergistic is a technology-powered, data-driven energy conservation company. Cenergistic helps organizations reduce consumption of electricity, natural gas, fuel oil and water. Its proven approach is built on a proprietary methodology, which optimizes clients’ infrastructure, improves internal processes and changes behavior to ensure that savings endure. This approach empowers the average client to save 20 – 30% off expected utility bills.

Cenergistic earned national recognition from the United States Environmental Protection Agency for 10 consecutive years, including the ENERGY STAR Partner of the Year – Sustained Excellence Award in 2011, 2012, 2013, 2014, 2015, 2016, 2017 and 2018. More information is at cenergistic.com.

About ENERGY STAR

ENERGY STAR® is the simple choice for energy efficiency. For over 25 years, EPA’s ENERGY STAR program has been America’s resource for saving energy and protecting the environment. Join the millions already making a difference at energystar.gov. More background information about ENERGY STAR can be found at energystar.gov/about and energystar.gov/numbers.

In 2016 alone, ENERGY STAR certified products, homes, buildings, and plants helped Americans save over \$30 billion in energy costs and approximately 400 billion kilowatt-hours of electricity and while achieving broad emissions reductions.

Thousands of industrial, commercial, utility, state, and local organizations—including more than 40 percent of the Fortune 500® — rely on their partnership with the U.S. Environmental Protection Agency (EPA) to deliver cost-saving energy efficiency solutions. Together, since 1992, ENERGY STAR and its partners have helped save American families and businesses over \$450 billion and over 3.5 trillion kilowatt-hours of electricity while also achieving broad emissions reductions—all through voluntary action.
